DETAILED ACTION

This Office Action regarding application number 10/530259 filed April 5, 2005 is in response to correspondence received January 2, 2008. Claims 3-4, currently amended, and claims 5-6, newly amended, are currently pending and have been given consideration below.

Allowable Subject Matter

1. Claims 3-6 are allowed.
2. The following is the examiner's statement of reasons for allowance:
Regarding claim 3, the closest prior art of record, Mlinar et al. (US Patent No. 6682626), teaches continuously feeding said front stretchable multilayer member and said rear stretchable multilayer member with a given distance therebetween (Figures 2 and 4, base webs `120` and `148`); preparing said absorbent body (Figure 2); and forming at least one cutting line (Figure 2, cross directional cuts `140` and column 18, lines 60-65) in said front stretchable multilayer member. However, Mlinar fails to teach attaching fastening members to an inner surface of said front stretchable multilayer member at both sides of said cutting line; nor does Mlinar or any of the prior art of record teach detachably engaging a front end portion of said absorbent body with said fastening members attached to said front stretchable multilayer member at both sides of said cutting line so that the front end portion of said absorbent body is in opposed facing relationship to said cutting line.

3. Claims 4-6 are allowable given their dependence on allowable claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
